

## **WELCOME**

Welcome to InSight Innovation Summit. Throughout the 3-day event, refer to this show guide to help you navigate the event environment and make the most of your InSight experience.

**May 18th - 20th, 6:30 AM - 3:30 PM CDT Daily**

InSight Innovation Summit, hosted by Convergent Technologies, is an exclusive digital transformation event for thought leaders, innovators, and technologists. This fully immersive digital summit will provide your organization with strategies and tools to optimize business performance and create a safer work environment, all through a virtual platform with flexible hours to meet your schedule.

## Strategy Sessions

---

Join thought leaders and industry experts as they share perspectives on game-changing technologies.

## 1:1 Meeting Tracks

---

Connect 1:1 with subject experts from Convergent and our partners to learn about the latest strategies and tools to optimize business performance.

## Innovation Demos

---

Improve business performance and learn how to apply the latest innovations and applications to specific environment with technology demos led by Convergent's expert partners.

To access your customized schedule for Strategy Sessions, 1:1 Meetings, and Innovation Demos, [LOGIN HERE](#) with the email you used to register for InSight 2021.

For any other questions, email [events@convergent.com](mailto:events@convergent.com), and we will assist you.

## InSight Innovation Summit Overview Schedule

Open daily from May 18th – 20th with flexible hours to meet your schedule, plus expanded time zone coverage from GMT to PDT to reach a global audience.

### Day 1 – Tuesday May 18th

6:30 AM – 3:30 PM CDT

#### Strategy Sessions and 1:1 Meetings

10:30 AM – 11:30 AM CDT

InSight Executive Keynote  
Presented by [Bobby Jindal](#)

**Executive View:**  
**How Public Policy is Impacting your Business**

### Day 2 – Wednesday May 19th

6:30 AM – 3:30 PM CDT

#### Strategy Sessions and 1:1 Meetings

10:30 AM – 11:30 AM CDT

InSight Executive Keynote  
Presented by [Michele Pelino](#)

**How Emerging Technologies and  
Computer Vision Solutions Power  
Digital Transformation**

### Day 3 – Thursday May 20th

6:30 AM – 3:30 PM CDT

#### Innovation Demos

10:30 AM 11:30 AM CDT

InSight Executive Keynote  
Presented by [John N. Stewart](#)

**Cybersecurity:**  
**Excuses are Gone, Accountability is Here**

## Partners:

**Agent Vi-** Agent Video Intelligence (Agent Vi™) is the leading global provider of open architecture, video analytics solutions. Agent Vi's comprehensive video analytics offering includes software products for on-premise installations as well as cloud-based SaaS, with capabilities ranging from real-time video analysis and alerts to video search and business intelligence. The solutions are fully integrated with a variety of cameras, encoders, video management systems and alarm automation software.

**AlertEnterprise-** AlertEnterprise delivers a unified cyber-physical security convergence platform by linking IT, OT, and Physical Security for risk prevention, detection, and mitigation. AlertEnterprise helps you eliminate security silos to deliver the most complete view of threats and vulnerabilities while enhancing workforce safety, data privacy, and experience.

**Alertus-** For more than a decade, Alertus Technologies has engineered innovative emergency alert systems for colleges and universities, K-12 schools, corporations, medical centers, military bases, and government organizations. The Alertus System has been implemented worldwide by more than 1,000 organizations in multiple industries for a number of emergency situations. These may include armed shooter incidents, bomb threats, weather related events, terrorist threats, chemical spills, or any number of emergency conditions.

**Allegion-** Allegion is a global pioneer in safety and security, with leading brands like CIS, Interflex, LCN, Schlage, SimonsVoss and Von Duprin. Focusing on security around the door and adjacent areas, Allegion produces a range of solutions for home, businesses, schools and other institutions.

**American Dynamics-** American Dynamics develops some of the world's most needed video technologies. Technologies that help retailers thwart organized crime to protect their bottom line, and universities provide peace of mind to parents of incoming students. Technologies that help our governments secure ports and borders, and hospitals ensure the safety and privacy of their patients. Technologies that move beyond security to become essential business-enabling tools.

**Anixter-** Anixter International is a leading global distributor of Network & Security Solutions, Electrical & Electronic Solutions and Utility Power Solutions. Anixter helps build, connect, protect, and power valuable assets and critical infrastructures. From enterprise networks to industrial MRO supply to video surveillance applications to electric power distribution, Anixter offers full-line solutions and intelligence that creates reliable, resilient systems that sustain businesses and communities.

**Arcules-** Arcules, A Canon Group company, delivers integrated cloud-based video surveillance service, access control, and analytics. Using the latest developments in cloud, AI, and machine learning, Arcules combines previously untapped video monitoring data with sensor data and analytics to deliver actionable insights that ultimately drive better business decisions, optimize operations and improve safety.

**Avigilon-** Avigilon, a Motorola Solutions company, designs, develops, and manufactures solutions in video analytics, cloud, security cameras, video management software and hardware, and access control. Avigilon is an industry leader and together with Motorola Solutions provides integrated solutions for video security, access control, and critical communications.

**Axis Communications-** Axis offers intelligent security solutions that enable a smarter, safer world. As the market leader in network video, Axis is driving the industry by continually launching innovative network products based on an open platform, delivering high value to customers through a global partner network. Axis has long-term relationships with partners and provides them with knowledge and ground-breaking network products in existing and new markets.

**Blackpoint Cyber-** Blackpoint Cyber is a technology-focused cyber security company headquartered in Maryland, USA. The company was established by former US Department of Defense and Intelligence cyber security and technology experts. Leveraging its real-world cyber experience and knowledge of malicious cyber behavior and tradecraft, Blackpoint provides cyber security products and services to help organizations protect their infrastructure and operations. The company's proprietary security operations and incident response platform, SNAP-Defense, is available as a product or as a 24x7 Managed Detection and Response (MDR) service.

**Bond-** Bond uses innovation and technology to watch over and connect people to one another, in a broad community of support. "Reimagining safety is our promise. Striving to keep you safer is our bond."

**BriefCam-**BriefCam is the leading provider of video analytics software that enables people, companies, and communities to unlock the value of video surveillance content. Delivering accurate, flexible, and comprehensive solutions, BriefCam's video analytics platform provides valuable insights for accelerating investigations, increasing situational awareness, and enhancing operational intelligence.

**Brivo-** Brivo is the global leader in cloud- based access control and security platforms for commercial and multifamily properties. Brivo's mission is to provide Simply Better Security solutions that improve users experiences for property managers, tenants, employees, and visitors.

**Camio-** Camio is the real-time video search engine that puts existing cameras to work to understand the problems that warrant humans attention. Unlike passive evidence collection, Camio makes proactive protection economically feasible with Machine Learning, AI, and a flexible SaaS (Software-as-a-Service) platform.

**CenTrak-** Industry-leading locating and sensing solutions: CenTrak® is an end-to-end IoT solution provider that transforms patient and resident care by delivering real-time operational insights.

**Cisco Meraki-** Cisco Meraki, the industry leader in cloud-managed IT, creates the simplest, most powerful solutions helping everyone from small businesses to global enterprises save time and money. Meraki technology, managed from an intuitive, feature rich interface, enables organizations to rapidly roll out digital initiatives to stay ahead of business demands.

**Cognyte-** Cognyte (formerly a Verint company) is a global leader in security analytics software that empowers governments and enterprises with Actionable Intelligence for a Safer World.

**Convergent Monitoring-** Convergent Monitoring is a comprehensive, fully integrated enterprise monitoring solution with a suite of tools to monitor intrusion, fire, and other mission-critical systems for its customers.

**Distech Controls-** Distech Controls connects people with intelligent building solutions through our forward-thinking technologies and services, partnering with customers to deliver innovative solutions that can provide better health, better spaces, and better efficiencies. Distech's passion for innovation, quality, and sustainability guides its business, which serves multiple market segments through worldwide business divisions, service offices and a superior network of Authorized System Integrators and Distributors. Distech Controls, Inc. is a subsidiary of Acuity Brands Lighting, Inc.

**Dragonfruit AI-** Dragonfruit AI is the industry leading Enterprise Video AI platform. Dragonfruit helps enterprises leverage their existing video infrastructure to remotely manage all their locations, investigate incidents centrally for safety and loss prevention, optimize occupancy across buildings, and combine real-world traffic with revenue data to deliver actionable insights.

**Eagle Eye Networks-** Eagle Eye Networks is changing the video surveillance industry with the Eagle Eye Video API Platform: a secure, open platform that provides the flexibility and scalability to meet your evolving needs, instantly. Harness the power of best-in-class third party technology with leading access control, point of sale, license plate recognition and AI integrations.

**Edwards-** Edwards is a global leader in fire alarm, mass notification, and hazard warning. Whether Edwards detection and alarm solutions are protecting the lives and livelihoods of the people who make businesses run, or who receive treatments at healthcare institutions; whether they're charged with protecting students, staff and faculty at the world's finest universities, or preserving irreplaceable artifacts that bring humankind's history to life; Edwards finds innovative ways to meet site-specific challenges and make every project a success.

**Everbridge-** Everbridge Inc. is a global software company that provides enterprise software applications that automate and accelerate organization's operational response to critical events in order to Keep People Safe and Businesses Running.

**Evolv-** Evolv Technology is revolutionizing security screening by combining advanced sensors and AI to protect visitors at a wide variety of events and venues from concealed weapons and public health threats.

**EvTrack-** EvTrack is a visitor management and cloud access control product. This ecosystem incorporates handheld guard scanning, multiple credentials, numberplate recognition, QR-code access control, one-time pin generation and support for traditional access control such as biometrics and RFID cards or tags.

**Exacq-** Exacq develops and manufactures open architecture network video recording (NVR) solutions for use in security surveillance applications. It offers virtual matrix switching and display that enables deployment of surveillance solutions for remote and centralized monitoring. The company also provides NVR software and preconfigured system, and open architecture.

**Feenics-** Feenics is paving the way for the future of physical security with innovative cloud-based access control solutions developed by industry veterans. Feenics makes it possible for organizations to secure systematically buildings, doors, and assets. With Keep by Feenics; the industry leading access control as a service (ACaaS) platform built specially for and hosted in the public cloud.

**Genetec Inc-** Genetec believes that in order to create and maintain thriving public spaces, groups, including urban planners, city managers, security experts, enterprise executives, and community leaders, must work together to achieve true public safety.

**Hanwha Techwin-** Hanwha Techwin America, the U.S. subsidiary of South Korean based Hanwha Techwin, is a leading supplier of advances network video surveillance solutions. Hanwha Techwin America provides products and technologies with the highest levels of performance, reliability, and cost- efficiency for professional security applications.

**HID Global-** HID powers the trusted identities of the world's people, places, and things.

**IDEMIA-** IDEMIA, the global leader in Augmented Identity, provides a trusted environment enabling citizens and consumers alike to perform their daily critical activities (such as pay, connect, and travel), in the physical as well as digital space.

**IMS: A Convergent Technologies Company-** IMS is an experienced integrator of complex hospital hardware and software systems requiring a multi-departmental buy in and after-sale support. IMS designs and integrates customized solutions to fit the customers' needs.

**Intel-** Intel is an American multinational corporation and technology company headquartered in Santa Clara, California, in Silicon Valley. It is the world's largest semiconductor chip manufacturer by revenue and is the developer of the –86 series of microprocessors, the processors found in most personal computers (PCs).

**LenelS2-** Lenel and S2 Security have joined together as LenelS2. The combined company delivers innovative security solutions, more choices to fit your organization's needs and an experiences, responsive support team.

**Magos Systems-** Magos was created to realize its co-founders' vision of bringing high- performance, reliable and low- cost radars into all security markets. Since 2008, the company has been developing and manufacturing Perimeter Surveillance Radars which an easily plug into any existing video surveillance systems and provide 24/7 reliable long-range detection and tracking in all weather conditions.

**Milestone Systems-** Milestone is a Managed Service Provider that uses a holistic approach to bridge the gap between technology and people. At Milestone, we go above and beyond the typical scope of day-to-day, break- fix issues to supple proactive and comprehensive IT services. We make it our mission not only to resolve your IT problems, but study and improve the overall workflow and functionality of your business.

**NESA Solutions-** NESA believes in unlocking the power of locations to allow users to control their own outcome. They are technology disruptors who build innovative location-based software solutions designed to drive significant efficiencies in customers' business processes, allowing them to meet and exceed their regulatory requirements.

**NVIDIA-** NVIDIA's invention of the GPU in 1999 sparked the growth of the PC gaming market, redefined modern computer graphics, and revolutionized parallel computing. More recently, GPU deep learning ignited modern AI—the next era of computing—with the GPU acting as the brain of computers, robots, and self-driving cars that can perceive and understand the world. Today, NVIDIA is increasingly known as "the AI computing company."

**Octopus-** Octopus command and controls software and apps allow information, cyber, safety, and logistics security officers manage manpower, procedures, and technology in day-to-day routine and in emergencies.

**Openpath-** Openpath creates touchless access control solutions for any building. The company's flagship product, Openpath Access, combines sleek hardware with a mobile app, enabling employees to enter the office using their smartphones and making office management easier than ever. Openpath's hands-free touchless technology means users can keep the phone in their pocket, walk up to a door and simply wave their hand to unlock any door. With encryption at every level and powerful, user-level permissions, Openpath Access is both more secure and more dynamic than traditional systems.

**Pivot3-** Pivot3 brings software innovation to the physical industry to simplify deploying and managing video infrastructure of any size or complexity. Whether customers are starting from scratch or have existing servers, Pivot3 provides unified, purpose-built infrastructures with software-based intelligence that lowers risk and overall TCO. With thousands of mission-critical deployments, Pivot3's industry expertise and purpose-built technology deliver a proven path to simplified security.

**Qognify-** Qognify solutions help organizations capture, analyze, and leverage big data to anticipate, manage, and mitigate security and safety risks, maintain business continuity, and streamline operations.

**RFCode-** RFCode provides the world's most innovative data center monitoring tools, with real-time asset management and automated environmental monitoring solutions that allow you to have a clearer picture of what is happening across all your data centers on a global scale, so you can save money, avoid surprises, and meet tomorrow's demands.

**RightCrowd-** Founded in 2004, RightCrowd is a leading provider of compliance, security, and safety solutions to some of the world's largest companies.

**RZproducts-** RZproducts security solutions stand for the passion of our company to develop, produce, and install secure, efficient and high availability high end products. This way, we create for our customers throughout the world's secure IT infrastructures that can be adapted to changing systems requirements, structures and processes flexible and quickly.

**SAFR-** SAFR from RealNetworks is a secure, highly accurate, AI facial recognition platform that is optimized for excellence in accuracy and performance for live video.

**Schneider Electric-** Schneider drives digital transformation by integrating world-leading process and energy technologies, and end-point to cloud connecting products, controls, software and services, across the entire lifecycle, enabling integrated company management, for homes, buildings, data centers, infrastructure and industries.

**SecuriThings-** SecuriThings enables organizations to protect their IoT devices while maximizing their operational efficiency. SecuriThings Horizon is the first IoTops solution to provide risk detection, predictive maintenance and automated operations, in one unified view.

**Sentry Enterprises** Founded in 2013, Sentry Enterprises is a Chicago based company with expertise in creating ultra-thin microelectronic security devices. The company offers a proprietary, patented, platform focused on providing proof-positive identification whether accessing a building or computing network. Sentry's solutions solve numerous risks facing today's enterprises, from biometric authentication for access to privacy, contact tracing, and hygiene issues.

**Siklu-** Siklu provides fixed wireless 5G solutions for a variety of industries and applications. Boasting the world's largest portfolio of mmWave products we deliver cutting edge, reliable mmWave technology to every project, every customer, every time.

**Soloinsight-** Soloinsight was founded on the driving principal of authentication and security, to improve operational efficiencies. Since its incorporation in 2013, it has grown into a leading platform adopted by a wide variety of companies from mid-size, growth-orientated firms to Fortune 100.

**Splan-** Splan is a California-based company specializing in providing next generation cloud software check-in solutions for visitors, events, and schools. Splan uniquely delivers an intelligent and fully automated solution for small to large enterprises. Splan is committed to delivering the most innovative security solutions, which are cost effective, easy to use, enterprise-centric, and web-based.

**StoneLock-** StoneLock is passionate about security and privacy, it's at the center of what they do. That's where StoneLock was born-out of the need for practical, intuitive solution for biometric access control and identity management. StoneLock provides facial recognition technology that makes your life more simple, more secure, and more protected.

**Titan-** At Titan, we bring a passion for customer success and customized approach to every partnership. We embrace challenges and deliver solutions that solve problems, transform businesses and change the world.

**Turing Video-** Turing Video was founded in the heart of Silicon Valley in 2017. Turing's vision is to utilize AI and robotics to bridge the space between security and technology to advance industries and human capabilities.

**Vector Flow-** Vector Flow is a software solutions and services company based in Bangalore, India. Its mission is to provide data driven solutions and services in innovative way to enable Intelligent Enterprises.

**West Excel Automation Ltd; Honeywell Building Technologies-** West Excel Automation Ltd is a building technologies distributor providing commercial building automation products and solutions. We offer several lines of control products as well as repair and maintenance parts for heating, cooling, and pneumatics.

## InSight Innovation Summit Time-Zone Guide

Time Zone GMT	Time Zone EDT	Time Zone CDT	Time Zone PDT
12:30 PM	7:30 AM	6:30 AM	4:30 AM
1:30 PM	8:30 AM	7:30 AM	5:30 AM
2:30 PM	9:30 AM	8:30 AM	6:30 AM

8:30 PM	3:30 PM	2:30 PM	12:30 PM

# InSight Innovation Summit Schedule

## Strategy Sessions – May 18th - CDT Time Zone

CDT	Track 1
6:30	How to Rapidly Transition from an SOC into an All-Threats Fusion Center
7:00	
7:30	Digital Transformation: A Catalyst for Growth
8:00	
8:30	The Future Is Here: Identity Management & Secure Credentials for the Hybrid Workplace
9:00	
9:30	Convergent Monitoring: Rethinking Enterprise Monitoring
10:00	
10:30	Executive View: How Public Policy is Impacting your Business
11:00	
11:30	Location Intelligence & Automation in an Industrial Environment
12:00	
12:30	Reducing the Vulnerability of Your Surveillance Systems from a Cyber Attack
13:00	
13:30	Game-Changing Technologies for Fan Experience & Safety
14:00	
14:30	AI and Computer Vision: Seeing New Opportunity in Security and Business
15:00	

## Strategy Sessions – May 18th - CDT Time Zone

CDT	Track 2
6:30	
7:00	
7:30	Create Safer Spaces with Weapon and Gunshot Detection Solutions
8:00	
8:30	Making Your Technology Strategy a Reality
9:00	
9:30	The Future of a Safe, Healthy & Collaborative Workplace
10:00	
10:30	Executive View: How Public Policy is Impacting your Business
11:00	
11:30	AI and Digital Transformation: Through the Industries' Lens
12:00	
12:30	Data: The Steam of the Fourth Industrial Revolution
13:00	
13:30	Innovation at a Global Scale: Navigating Complexity to Drive Results
14:00	
14:30	Life-Saving Technology for Emergency Notification, Response, and Management
15:00	

## InSight Innovation Summit Schedule

### Strategy Sessions – May 18th - CDT Time Zone

CDT	Track 3
6:30	
7:00	
7:30	Optimizing Data Center Deployments with Global Capabilities and a Programmatic Approach
8:00	
8:30	The Emergence of IT-Driven Visual Intelligence with Cloud-based Physical and Digital Security
9:00	
9:30	
10:00	
10:30	Executive View: How Public Policy is Impacting your Business

## 1:1 Meetings

---

To register for one-on-one meetings, visit our [event hub](#).

Avigilon	Brian Bloomingdale Steven Saied	Safety and Security Start with Smart Technology
Axis Communications	Adam Jussaume Joe Ruggiero Scott Filiczkowski Steve Burdet	How Digital Transformation is Driving Horizontal Innovation
Blackpoint	Jamie Moore	Simplifying Cybersecurity and Preventing Attacks
Convergent	Scott Frigaard	How to Rapidly Transition from an SOC into an All-Threats Fusion Center
Convergent	IMS - John Eaton	Understanding the Value of Location-Enabled Workflows in Healthcare
Convergent	Doug Greenwald	The Future Is Here: Identity Management & Secure Credentials for the Hybrid Workplace
Genetec	Barb Wood Kevin Burkhart Ty Miller	Driving Smart Decisions with Actionable Data
HID Global	Nick Stoner	Touchless Physical Access Control for a Smart & Safe Workplace
LenelS2	Josh Dempsey	Empower Security Teams with LenelS2 OnGuard System
Milestone	Brad Thomas Andrea Meissner Paul Messenger	Solving Challenges with the Latest Innovations in Video Analytics
SecuriThings	Jonathan Shtofman	Manage IoT Devices with a Software-Only Solution
Sentry Enterprises	John Calzaretta	Converged Biometric Identification Solutions
