Transformative Solutions for Mission Critical Security Operations
Everbridge and Convergint

Stay informed with real-time intelligence so you can effectively respond when it matters most.

During public safety threats such as active shooter situations, terrorist attacks, or severe weather conditions, as well as critical business events including IT outages, cyber-attacks, product recalls, or supply-chain interruptions, over 5,400 global customers rely on Everbridge to quickly and reliably aggregate and assess threat data, locate people at risk, automate the execution of predefined communications processes devices, and track progress on executing response plans.

According to Forrester, Everbridge's CEM Platform demonstrated a 354% ROI over three years with a payback period of three months. Let Convergint serve as your subject matter experts for Everbridge's CEM platform, helping you to best utilize the technology in your global security operations centers (GSOCs), Fusion centers, or stand-alone implementations.

MORE POWERFUL TOGETHER

+ Everbridge's technology with Convergint's expertise enables businesses, governments, schools, and hospitals to protect the enterprise, from the edge to the cloud, all while being as involved or as hands-off as they'd like.

+ Convergint manages implementation of Everbridge Critical Event Management (CEM), delivering a turn-key and personalized solution to optimize your operational resilience and business continuity.

+ Together, the two work strategically with customers to help reduce risk, meet regulations, or deliver a positive business return.
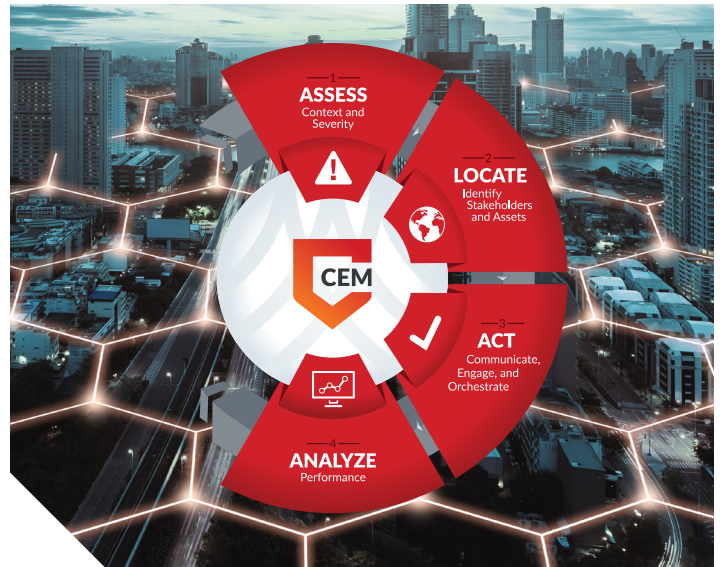

Convergint is a global, service-based systems integrator whose top priority is service in every way – service to customers, colleagues, and community.

Convergint specializes in electronic security, fire alarm & life safety, healthcare technologies, physical security, communications, and building automation.

Convergint designs, installs, and services seamlessly integrated security solutions for a wide range of verticals and industries. Solutions must provide the highest level of protection, without fail, for your assets.

Convergint partners with the best equipment manufacturers and software developers to ensure what you want secured stays secure.

Convergint and Everbridge have joined forces to digitally transform organizations' safety and security posture. This combination of Convergint's existing security integration expertise and Everbridge's enabling technology creates mutually beneficial services and service enhancements for organizations of all sizes, private and public.

EVERBRIDGE
CRITICAL EVENT MANAGEMENT

Whether natural or humanmade, critical events are happening at an increasing rate, and will inevitably impact individuals and their organizations at any level. But what if technology could act as a shield and sword to withstand critical events without a significant impact to your people or operations?

Everbridge Critical Event Management (CEM) empowers companies to achieve organization-wide resiliency to succeed in the face of crisis. Enhancements to crisis response, business continuity management, and crisis preparedness are top priorities for organizations at any scale.

Everbridge CEM digitally transforms a company's crisis and business continuity program. By automating the lifecycle of how organizations prepare and respond to critical events, and with multiple technology components operating seamlessly together in the cloud, and also integrating cooperatively on premise when needed.

Convergint designs, installs, and services seamlessly integrated security solutions for a wide range of verticals and industries.

Physical security equipment must provide the highest level of protection, without fail, for your assets. Convergint partners with the best equipment manufacturers and software developers to ensure what you want secured stays secure.

Serving single-site customers, as well as those with a global multi-site footprint, Convergint will design a solution to meet both your current needs as well as your future growth plans.

Most importantly, Convergint provides a wide array of professional services to ensure your investment is protected and continues to operate as originally designed.
