itrac

A project workflow tool to enable collaboration and successful project completion

Convergint value

iTrac is a web-based, value-added platform that enables **online, real-time** customer project commissioning and execution. This secure online environment allows stakeholders to **efficiently collaborate** and track progress on both individual sites and highly complex projects.

With streamlined communication, detailed documentation, and **instant access** to project status, iTrac enhances project management and delivers **time-saving** and **cost-efficient** benefits for customers.

Convergint solutions

- ✓ **Resource optimization**
- ✓ **Installation tracking**
- ✓ **Efficient communicating**
- ✓ **Real-time reporting**
- ✓ **License free**
