convergint®

Delivering fully-integrated, high-security solutions for **data centers**

Convergint **value**

Convergint provides **end-to-end security services** for data centers, including design, project implementation, system maintenance, and advanced solutions–all with the **global footprint** needed to support **fast-paced markets** at a local level.

Convergint's data center experts take a programmatic approach in large account management, providing **consistency** in communication and performance, while **standardizing delivery** to ensure precise execution.

Convergint **solutions**

- ✔ **Perimeter protection**
- ✔ **Identity and asset management**
- ✔ **Edge and modular solutions**
- ✔ **Environmental monitoring**
- ✔ **Video surveillance**
- ✔ **Access control**
