

Simplifying account management  
to provide unparalleled,  
**consistent delivery**  
around the globe

## Convergint value

---

Convergint simplifies global security integration with coverage across North America, Central America, South America, EMEA, Oceania, and Asia. The **Global Accounts** team is comprised of account managers that identify business opportunities and program managers that ensure operational consistency throughout the world.

Convergint's dedicated strategic team centralizes security standards, specifications, and expectations on a global basis. With the global footprint needed to support fast-paced markets at a local level, Convergint offers **customized solutions** for unique business needs.
