convergint®

A **Program Management tool** for customer **transparency** and consistent **project execution**

iControls **value**

iControls is a **custom application** that enables Program Managers to implement a **repeatable project delivery process**. This support tool offers **greater visibility** regarding program status, making it easier to track and share throughout the program lifecycle.

iControls **builds efficiencies automatically** and monitors constantly to **drive consistency** in performance. The streamlined collaboration of tools helps track deliverables, providing uniform, accurate, and timely updates for our teams and customers in a dashboard format.

iControls **features**

- ✔ **Consistent communication**
- ✔ **Program level transparency**
- ✔ **Smartsheet® automation**
- ✔ **Program-level metrics**
- ✔ **Opportunity tracker**
