

A project design automation tool to improve **standardization and accuracy**

iDesign **value**

Convergent believes **clear, consistent, and accurate** documentation is key to the seamless design, installation, and service. iDesign represents Convergent's commitment to delivering consistency regardless of project geography or scale.

iDesign is a Convergent-exclusive **workflow that standardizes** the design process and output information to ensure that every project is delivered with precise, detailed documentation. By incorporating the ability to capture customers' regional and technology-specific requirements, iDesign acts as your guardian, ensuring consistency throughout the design journey.

iDesign **services**

- ✔ **Enforce technology & customer specific standards**
- ✔ **Provide tools & processes for standardization**
- ✔ **Offer consistent design output**
- ✔ **Support operations globally**
- ✔ **Deliver data-rich content**
