Securely managing innovative technology systems with global **cloud access**

convergint®

Convergint **value**

Convergint's streamlined approach to **managed cloud access** delivers unparalleled reliabilty, ease of use, scalability, and cybersecurity, paired with innovative software, firmware, and hardware for the most advanced systems. Using **data-driven techniques**, Convergint's dedicated experts simplify cloud access to reduce operational costs while improving safety and security. Convergint provides integrated system deployment, management, and continuous support services to enable the migration of legacy security systems to the cloud.

Convergint **services**

- ✓ **System design**
- ✓ **Deployment & setup**
- ✓ **Vulnerability assessments**
- ✓ **Program management**
- ✓ **Health monitoring**
- ✓ **Data encryption**

- ✓ **Firmware & application updates**
- ✓ **Onsite service**
