

Modern Slavery Act 2015

SLAVERY AND HUMAN TRAFFICING STATEMENT

Convergint takes all reasonably practicable steps to ensure that Human Trafficking is not taking place:

- 1) in any of Convergint supply chains, and
- 2) in any part of Convergint own business.

Convergint maintains the same structure as highlighted within the Integrated Management System Framework. The Context of which, and the 'Needs and Expectations of Interested Parties' are also included. The Supply Chain continues to be integral to the business and Convergint Technologies success.

This Policy statement represents one of many policies where the intentions are made clear from Convergint Director regarding modern slavery issues.

Convergint undertakes thorough due diligence on all Supply Chain Partners. This is achieved via our Local Service Providers and Suppliers Prequalification Questionnaires.

Convergint reviews parts of the business and supply chains where the risk of slavery and human trafficking taking place is at the highest. This shall be risk assessed prior to any forms of engagement. There are several layers of management involved in the approval process of all Supply Chain Partners.
