

Providing proactive
threat awareness
with comprehensive
Fusion Centers

Convergint value

Fusion Centers are the next generation of Security Operations Centers, leveraging innovative technology and data analytics to support enhanced situational awareness and more efficient response to incidents. By deploying **predictive, fully-integrated** Fusion Centers, Convergint prepares organizations for today's modern security challenges.

Convergint's Digital Transformation experts enable intelligence-driven security postures that promote rapid threat detection, instant and complete **situational awareness**, automated SOPs, and centralized coordination with stakeholders through advanced Fusion Centers.
