Proactive security and real-time insights with natural language video search

convergint®

Convergint **value**

Convergint and Camio work together to solve key problems like false alarms, tailgating, and reliable video retention using **AI, natural language search**, and standard IP cameras. Camio is a **search engine** for security video that tells you when to look—proactive security instead of passive evidence collection—and turns video into data insights important for contractual and regulatory compliance like SOC2 and PCI DSS.

Intelligent video **benefits**

- ✔ Extensible AI video analysis
- ✔ Cyber-secure cloud-native platform
- ✔ Actionable data

- ✔ Automated threat alerts
- ✔ 90+% reduction in false alarms

- ✔ Configured & commissioned in minutes

- ✔ DIY Detectors & BigQuery SQL/sync

- ✔ Unlimited cloud storage

- ✔ 50x force multiplier
