

Strategic integration of access control and video surveillance for optimized safety & security

convergint®

Convergint value

Convergint partners strategically with **LenelS2** and **Milestone** to provide a best-in-class integrated access control and video surveillance solution. Eliminate barriers by combining the **superior scalability** of the *OnGuard®* system with the **actionable insights** of *XProtect®* video in one seamless solution. Stream video and events from the Milestone *XProtect* recorder and view on any *OnGuard* client. Using a **fully-integrated** access control and video recorder ecosystem with customized deployment options, organizations have the flexibility to improve safety and security for unique use cases.

Integrated solutions

- ✓ Simple & intuitive interface
- ✓ End-user empowerment
- ✓ United event management
- ✓ Bi-directional integration
- ✓ Video analytics
- ✓ Open platform
- ✓ Situational awareness
- ✓ Dynamic mapping
