

Convergent delivers **AI-driven facial authentication** for secured spaces

Convergent value

Convergent partners with Alcatraz AI to deliver the Rock that **transforms access control** by **leveraging artificial intelligence** and analytics to make powerful decisions at the edge. Alcatraz's facial authentication technology is designed to be easily deployed on any access control system, with no integration needed, providing an **enterprise-grade security solution** to protect businesses, people, and assets. The Rock's AI technology and intelligent tailgating detection enable companies to innovate and future-proof their security strategy.

Convergent solutions

- ✔ Easy implementation
- ✔ Premium user & admin experience
- ✔ Edge computing
- ✔ Detect & prevent tailgating
- ✔ Fast & secure authentication
- ✔ Prevent security breaches & mitigate risk
- ✔ Reduce security infrastructure
- ✔ No integration required
- ✔ Frictionless access
