

Convergent value

Convergent partners with **Bosch** to provide **Perimeter Intrusion Detection Systems (PIDS)**. This solution helps to secure buildings, bases, perimeters, and ports by maintaining a comprehensive physical and cyber security posture. When coupled with video management systems, Bosch cameras, and intrusion alarm detection and communication systems, it allows personnel to carry out their job more effectively due to the **reduction in false alarms**.

Convergent offers Bosch IP cameras equipped with machine learning technology that enables built-in intelligence to deliver best-in-class **critical infrastructure technology**.

Convergent solutions

- ✔ Automated response via PRAESENSA & PAVIRO
- ✔ Seamless multi-system integration
- ✔ Single-sourced solutions
- ✔ False alarm prevention
- ✔ Timely and accurate
- ✔ Cost-effective
