

Providing protection  
for valuable resources

## Convergint value

---

Convergint partners with Bosch to offer a wide variety of integrated intrusion and access control solutions to fit situations only a **financial institution** will encounter.

The fully encrypted intrusion panels can be configured to **detect, report, and alert** employees or your monitoring center. Bosch offers a wide variety of intrusion panels with built-in functions such as auto rearm, early ambush, two-person disarm, and integration to access control systems. Convergint and Bosch are both **dedicated** to providing unprecedented service and product sets to **solve and mitigate security issues**.
