

Convergint value

Rapid technological advancement, increasing urbanization, and escalating commuter and government demands are pressuring transit industry players to modernize. At the same time, it is critical that transit security and operations teams collaboratively address the reality of **evolving physical and cyber threats** that comes with change.

As such, Convergint is pleased to announce that Convergint Technology Centers (CTCs) in Albany, NY is now **certified to offer Genetec Transportation Solutions**.

Convergint solutions

- 
- A long-exposure photograph of a subway tunnel, showing light trails from moving trains and overhead lights, creating a sense of motion and depth.
- ✓ **Precise GPS tracking**
 - ✓ **Advanced vehicle telematics**
