

Convergint value

Convergint partners with Evolv to provide **Evolv Express**: an advanced weapons screener that uses artificial intelligence (AI), advanced sensors, and comprehensive analysis to identify and **mitigate threats to public safety**.

By distinguishing everyday items from potential threats, Evolv Express **enhances safety in all places where people gather**, including public events, stadiums, schools, hospitals, houses of worship, and workplaces.

Features and benefits

- ✓ Distinguishes threats for faster issue resolution
- ✓ Differentiates personal items from threats
- ✓ Integrates security technologies
- ✓ Prioritizes the guest experience
- ✓ Advances security posture
