

# Providing safety & security solutions for correctional facilities

## Convergint value

---

Convergint's SLED team deploys cost-effective, scalable solutions to ensure the safety of the public, staff, and inmates, and to maintain proper functioning within correctional facilities. As technology continues to advance, correctional facilities need to adapt and integrate these technological advancements to enhance security, improve efficiency, and reduce risks.

Convergint specializes in integrating the right technology to enable security incident reduction while improving response time, allowing correctional facilities to operate without additional risk.
